UFO SNATCHES COUPLE IN SMOKY MOUNTAINS— BIGFOOT WAVES FROM BELOW!

GATLINBURG, TENN. — A quiet weekend getaway turned into a cosmic nightmare when a Tennessee couple claimed they were abducted by a UFO in the misty heart of the Smoky Mountains, while none other than **BIGFOOT** allegedly waved them goodbye from the forest floor!

Marvin and Doris Tillman of Knoxville told **Shockwave Express** they were driving home just past midnight along Highway 441 when a “blazing silver disc” appeared overhead.

“It was like the moon had come down from the sky, only brighter and humming like a thousand bees.”

— Marvin Tillman, eyewitness

“The next thing we knew, the car wasn't touching the road anymore. We were floating!” said Marvin.

Doris, still shaken, recalled: “I looked out the window, and there he was... Bigfoot himself! He just stood there in the clearing, waving his huge arm like he was sending us off.”

Local rangers dismissed the event as “imagination in the fog,” but hikers confirmed seeing a **craft darting above the tree line** moving “faster than a jet.”

The Tillmans also reported a chilling detail: they lost nearly **three hours of time** they cannot account for. “When we came to, we were parked on the roadside, engine off, doors locked,” Marvin said.

SHOCKWAVE EXPRESS SAYS...

Was Bigfoot trying to **HELP** the aliens... or **HELP** the humans? Only time will tell. Stay tuned for more updates on this **Smoky Mountain Mystery!**

SHOCKING EVIDENCE

Shockwave investigators rushed to the scene and discovered:

- ÷ A scorched, circular patch of earth.
- ÷ Massive footprints vanishing into the woods.
- ÷ A strange metallic residue on a tree trunk that **melted a compass.**

EXPERTS SPEAK OUT

“This could mean Bigfoot is not just a creature of Earth,” explained Dr. Lionel Carr, noted paranormal researcher.

“He may be an interdimensional ambassador, a guide between humans and visitors from beyond.”
